NYI NYI ZAW

ACADEMIC LEADER | COMPUTER SCIENCE & ICT EDUCATOR

09757347937 nyinyizaw19972@gmail.com Yangon, Myanmar
www.linkedin.com/in/nyi-nyi-zaw-15774818b

Professional Summary

Computing educator and academic leader with experience in curriculum development, academic planning, teacher mentoring, and Computing education from Primary to IGCSE levels. Former Deputy Head of Computing Department with experience supporting departmental development, mentoring junior teachers, delivering internal teacher training, developing learning resources and assessments, and leading student technology projects and competitions.

Strong technical background in Python, Scratch, web development, and software development, combined with practical experience in student-centred and project-based learning. Experienced in designing structured Computing programmes, supporting mixed-ability learners, preparing students for external examinations, and developing educational content such as Debugging with Scratch, a practical debugging-focused learning resource for Scratch students.

Teaching Experience

ConceptX International School

ICT/ Computer Science Online Teacher

January 2023 - Present

- Teach ICT and Computer Science to secondary students in an online learning environment.
- Deliver structured lessons aligned with the **Edexcel International GCSE curriculum**.
- Prepare lesson plans, learning materials, assessments, worksheets, and exam-style practice questions.
- Support students in developing strong conceptual understanding and effective examination techniques.
- Provide academic feedback and targeted support to improve students' subject knowledge and examination performance.

Deputy Head of Computing Department

June 2022 - December 2024

Academic Leadership & Department Development

- Supported Computing curriculum planning and academic development from **Primary to IGCSE levels**.
- Mentored junior teachers and delivered internal teacher training and professional development.
- Developed lesson plans, schemes of work, assessments, worksheets, and learning resources.
- Supported teaching quality, departmental planning, and interdisciplinary STEAM projects.
- Taught ICT and Computer Science including **Python, Scratch, digital literacy, web technologies, and ICT applications**.
- Led student technology projects and Computing competitions.

Online Primary Computing Teacher

August 2021 - June 2022

- Delivered one year of remote Computing education for Primary students.
- Introduced foundational Computing concepts through interactive and age-appropriate activities.
- Designed digital learning materials and practical activities for online learning.
- Adapted teaching approaches to meet the needs of younger learners in a remote learning environment.
- Supported students in developing foundational digital literacy and computational thinking skills.

STEM Instructor - STEM Racing Thailand, Chiang Mai

June 2025 - December 2025

- Teach hands-on STEM activities designed for young learners.
- Deliver engaging lessons focused on experimentation, early engineering thinking, and creativity.
- Guide students in problem-solving activities and collaborative group work.

Education History & Certifications

Bachelor of Engineering in Information Technology

Technological University (Hmawbi) 2023

Certificate in Private Teacher Education

Yangon University

Skills and Expertise

Teaching & Curriculum Skills

- Edexcel IGCSE ICT / Computer Science
- Cambridge IGCSE ICT / Computer Science – Familiarity
- Curriculum Development & Academic Planning
- Lesson Planning, Assessment & Feedback
- Differentiated Instruction
- Student-Centred & Project-Based Learning
- Online & Blended Learning

Computing & Coding

- Python
- Scratch
- 3D Design
- AI and Machine Learning
- ICT Applications
- Digital Literacy
- Web Development

Professional & Soft Skills

- Academic Leadership
- Teacher Mentoring & Training
- Communication & Presentation
- Collaboration & Teamwork
- Problem-Solving
- Project Coordination
- Flexibility & Adaptability

Projects & Achievements

Debugging with Scratch

Author & Educational Content Developer

- Developed a practical Scratch learning resource focused on debugging, problem-solving, and computational thinking.
- Created supporting Scratch projects, exercises, and video lessons in English and Burmese.
- Developed an online learning environment using Google Classroom with learner support through Telegram.

Computing Curriculum & Activities

- Organised multiple computing competitions to promote student creativity and confidence.
  - Scratch Game Jame (Primary 5, 2022-2023)
  - Canva Web Design Challenge (Primary 6, 2022-2023)
  - Programming Contest (Secondary 1 & 2, 2023-2024) - (Secondary 1 & 2, 2025 - 2026)
  - STEM Racing Competition (2025)

Additional Experience

MMDigital Solutions (2019 – 2020)

Web Developer

- Developed and maintained modern, responsive web applications using React, Vue.js, JavaScript, HTML5, and CSS.
- Integrated RESTful APIs and collaborated with UI/UX designers.
- Contributed to projects such as MMTutor, Fungry AI, and MMClassroom.
